

Packaged Air Conditioner with Puron Refrigerant

MODEL PA3Z

Bryant's Most Affordable Packaged Air Conditioner

Earning Your Trust Since 1904

Competition for consumer confidence is tougher than ever. That's why Bryant continues to build on a foundation of delivering comfort... reliability... and value that started back in 1904. We've earned our reputation through a commitment to continuously meet and exceed the changing needs of homeowners just like you. Today, as consumers face increasingly difficult decisions on the products they choose, Bryant responds with our most affordable

packaged air conditioner - the Model PA3Z.

The Bryant Model PA3Z delivers solid, reliable cooling at 13 SEER (Seasonal Energy Efficiency Ratio). It offers durability built in with our high-tech composite base. Add our durable compressor, corrosion-resistant copper tube aluminum fin coil, and attractive durable cabinet, and it's easy to see why Bryant backs the Model 564B for years of dependable, worry-free comfort.

Warranty

To the original owner, the Bryant Model PA3Z packaged product is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.

*Warranty period is 5-years if not registered within 90-days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts warranty. See warranty certificate at Bryant.com for complete details.

Environmentally Sound Puron® Refrigerant

Designed specifically for use with Puron® refrigerant, the Model PA3Z provides an environmentally sound solution for the scheduled phase-out of Freon®-22*. Freon-22, the industry standard refrigerant for many years, is being taken out of production due to environmental concerns. As it becomes less and less

available, costs to service heat pumps using Freon-22 may rise (an idea supported by the rise in costs to service automobile air conditioners using the phased-out Freon®-12*). By choosing Puron now, you are making a decision that is both environmentally and financially sound.

* The registered owner of Freon is E.I. Dupont de Nemour & Co.

Performance

Home Comfort Components

- 1 ENERGY EFFICIENT**
Our compressor is designed for use with Puron® refrigerant to provide quiet, smooth-operating comfort and years of trouble-free performance.
- 2 QUIET OPERATION**
Is attributed to the fan blade. The unique design moves air with less noise and turbulence for quieter, more efficient operation.
- 3 32" NARROW CABINET DESIGN** (all sizes) allows a perfect fit for zero lot line installations.
- 4 DURABILITY AND INDOOR AIR QUALITY**
Built with a high-tech composite material, Bryant's premium base will not rust. Sloped design and integrated drain minimize standing water to improve indoor air quality by inhibiting mold, bacteria and algae growth.
- 5 LASTING LOOKS AND PROTECTION**
Exterior cabinetry is coated with a rugged baked-on enamel finish to provide superior scratch and corrosion resistance.
